**Subject:** Old marijuana

Hi there,

If there is a real possibility that we are going to move forward with a "Not Tested" designation for our old marijuana cases should we put analyzing the old stuff "on hold" for now and have chemists who test marijuana focus on the marijuana cases that have been submitted since the new law took effect on 1/2/09? Right now we are assigning marijuana from September 23, 2008. (Wow, that was more than 7 months ago!)

Just a thought,  
Betsy
